2021-2022

Name of the Department/Society: National Service Scheme

Name of the Event 54: CYBER SECURITY

Date of the Event: 12th June 2022

We live in a tech-savvy world which is rapidly evolving due to the advancement in digitization.
With newer technologies, we are getting exposed to bigger threats from hackers who are rapidly finding sophisticated ways to conduct cybercrimes. It, therefore, becomes imperative to cover and protect the education sector with cybersecurity.

On 12th June 2022, Padhaku wing of NSS Hansraj conducted a Cybersecurity Awareness Session to make the students aware about cyber security through a virtual platform. The volunteers explained to the students about what cyber security is and how they should operate their social media accounts and Gmail. They highlighted the fact that the internet is a very potent tool if used rationally. Furthermore, the passwords should not be saved on the browser and are not to be shared to anyone. The talk on cyber bullying stated that in case of being cyber duped, you need to inform any trusted adult.

This was followed by a small quiz related to the session. A small Q&A session in which students asked their doubts and were guided thoroughly. They also shared their experiences regarding the problems they face while indulging in cyber activities. To sum up, the session was filled with unnerving facts and information to help the students grow as a cyber safe generation.
