Event Description (About 250 Words): Srishti Chetna-The Zoological Society of Hansraj college organised a seminar on “Understanding neonatal brachial plexus injury mechanism to advance the science of Obstetrical care”. Prof. Dr. Anita Singh, Associate Professor of Bioengineering at Temple University, Philadelphia, PA, was the invited guest for the seminar. Dr. Anita Singh's lecture provided a comprehensive summary of the neural basis of muscle control in forelimbs, the different types of brachial plexus injuries, their causes, and the resulting consequences. She also presented various diagnostic methods and tools to identify and assess neonatal brachial plexus injuries (NBPI), using real-life images, diagrams, graphs, statistical data, and computational models to support her experimental findings. After Dr. Anita Singh's lecture, an interactive "Question and Answer" session took place, enabling the audience to engage directly with the speaker. Attendees had the chance to ask questions and seek further clarification on different aspects of neonatal brachial plexus injuries. The session drew a significant number of participants, reflecting the audience's appreciation for the informative and thought-provoking discussion.
