A trailblazing physicist and chemist with pioneering investigations into radioactivity, earning her the distinction of being the first woman to receive a Nobel Prize, Madame Marie Curie is an enduring symbol of scientific advancement. To commemorate such a phenomenal personality and to simulate the curiosity and creativity of the young minds, Rasayanatva- the Chemical Society of Hansraj College inaugurated the 'MADAM MARIE CURIE LECTURE SERIES' on September 20, 2023 at 11:40 a.m. in the college premises. The speaker for the day was Dr. Parul Pant, Assistant Professor, Department of Chemistry, Hansraj College. She holds firm mastery over her subject and is a distinguished faculty member of our college. The session was quite informative and proved to be a boon in understanding 'Day-to-Day Chemistry' in a unique way. Her statements were quite encouraging and struck the right balance between theory and practice. Her fascinating discussion of the relationship between science and spirituality left the students with lots of food for thought. The interactive session was over much too soon, but it left an indelible impression on everyone present there. The positive responses received after the talk have been of great importance, and Rasayanatva keenly aspires to carry forward the legacy by offering more such engaging lectures in the future.
