

2019-20

Name of Department/Society: Green Warriors Club

Name of the Event 4: Project Eco-bricks

Date of the Event: 28 December 2019

On 28 December 2019, Green Warriors Club enacted 'Project Eco-bricks' with a resolution to reuse and reduce plastic waste. The main aim of Project Eco-brick was to minimize plastic waste by packing a plastic bottle with used plastic to a set density to create a green ambience.

With the project being a multi-step process, a 'Waste Collection Drive' was conducted on 28 December, 2019 as step one of the process. It was conducted with enthusiasm and many GWC members participated in it. Single use plastic bottles, polybags, plastic wrappers, plastic straws, used pens etc. were collected as a part of the drive.

Throughout the drive, volunteers were informed on the negative impacts of plastic waste generation. The team then enthusiastically collected plastic wastes together, thereby contributing towards a healthier and balanced environment.
