

Green Warriors Club

About the Society

Green Warriors Club is an environmental society established to work towards change and make the world a better place by conserving the environment. They focus on being the solution with "Greener the Present, Better the Future" as their motto. The society works by hands-on efforts by its members to combat environmental issues by reclamation of wasteland by plantation drives, plant adoption campaigns, generation of environmental awareness regarding different issues, collaborative projects with NGOs and other environmental organizations, etc. The club works at various parameters related to the superintendence of Green Earth. During two years, this society initiated several events and campaigns such as 'Plant Adoption Campaign', 'Plant Giveaway' Drive, 'Plant Care Series' to allow students to take responsibility for preserving nature, 'Plantation drives' to showcase that even a small facilitative hand can bring a change where several such plants were sown to develop the native flora. 'Project Eco-Brick', 'Waste Collection Drives' in awareness of waste collection and disposal. With this, GWC has organized events to Reuse non-cyclable items like 'Trashion' or 'Trash to treasure' to help combat the pollution caused by plastic by keeping them out of the ecosystem and preventing contamination of the environment. Green Warriors Club organized various insightful and informative webinars on Environmental laws and Planet protection, Climate change, World Clean-up Day to generate awareness about managing solid waste including problems of

marine debris, etc. This society's Annual Fest MIDORI showcases eco-friendly ways to hold a fest, collaborating with NGOs and enlightening students with the beauty of nature and encouraging them to find solutions to the environmental crisis.

Convener name: **Dr. Pratibha Pant**

Core Team Members

President: Saumya Agrawal, B.Sc. (Hons.) Botany, 3rd Year

Vice President: Puneet Jain, B.Sc. (Hons.) Mathematics, 3rd Year

General Secretary: Sonakshi Talwar, B.Sc. (Hons.) Zoology, 3rd Year

Joint Secretary: Yuvraj Gaur, B.Sc. Life Sciences, 3rd Year

Treasurer: Chetan Pahwa, B.Sc. (Hons.) Botany, 3rd Year

Senior Advisors: Yashvi Jain, BA Program, 3rd Year

Senior Advisor: Nayan Gupta, B.Sc. (Hons.) Electronics, 3rd Year

Report of events organized/participated in the academic year 20-21

Webinar: Black Softshell Turtle- Extinct or Existing?: Webinar on 25th April 2021 by Mr. Gaurav Barhodiya (Nature Education officer at DDA Aravalli Bio diversity park, PhD researcher at development of environmental studies, DU)

Facts and figures

<p>+1°C</p> <p>As of 2017 humans are estimated to have caused approximately 1.0°C of global warming above pre-industrial levels.</p>	<p>+20cm</p> <p>Sea levels have risen by about 20 cm (8 inches) since 1880 and are projected to rise another 30–122 cm (1 to 4 feet) by 2100.</p>	<p>2050</p> <p>To limit warming to 1.5C, global net CO2 emissions must drop by 45% between 2010 and 2030, and reach net zero around 2050.</p>
<p>1/3</p> <p>Climate pledges under The Paris Agreement cover only one third of the emissions reductions needed to keep the world below 2°C.</p>	<p>\$26 trillion</p> <p>Bold climate action could trigger at least US\$26 trillion in economic benefits by 2030.</p>	<p>18 million</p> <p>The energy sector alone will create around 18 million more jobs by 2030, focused specifically on energy.</p>

Sankalp Parva: Plant Adoption campaign organized on the occasion of Sankalp parva, a tree-planting initiative by the ministry of culture, Govt. of India. Date- July 2020. We have continued with our plant adoption campaign in the review of “Sankalp Parva” which is a tree planting initiative by the Ministry of Culture. We tried to revamp the décor of plantation to make this drive a huge success.
