NAAC ACCREDITED 'A++ GRADE COLLEGE

Initiative, Center for Global Affairs and Public Policy, organised Agents of Change : Youth Empowerment towards Circular Economy and Resources Efficiency at Development Alternatives, Qutub Institutional Area, New Delhi.

This workshop aimed at giving a transformative experience to attendees where they'll be able to explore innovative strategies, discuss groundbreaking ideas, and foster a sense of collective action to build a greener, more sustainable world. It is your opportunity to become an agent of change for a sustainable and a better future! The workshop was successfully conducted and was attended by students from different colleges of Delhi University.

2w

One of the main initiatives of IYCN is Agents of Change (AoC). It attempts to educate young about climate change and better involve them in local, national, and international climate debates. It aims to raise young participation in and awareness of India's handling of environmental and climate change issues. The initiative seeks to send a delegation of young Indians who will work to engage government delegations from across the world in policy, support the development of a worldwide network for youth climate change, and foster agreement among civil society organisations. The "Agents of Change" expands the Indian Youth Climate Network's grassroots climate movement into a global movement. Participants (particularly youth) got the chance to discuss experiences, difficulties, and possibilities in advancing the circular economy agenda at the local and federal levels during this session at Development Alternatives in Qutub Institutional Area, New Delhi. It emphasised the value of student-led initiatives on campuses and the contribution of all stakeholders to the development of a circular economy. IYCN, CGAPP, and Haritima, the sustainability club of Hansraj College, made a commitment to support the Youth Circular Economy Movement as the workshop came to a close.

The workshop included various speaker sessions, that started off with **Mr. Ashish Pahwa, President, Indian Youth Climate Network**, who addressed the speakers and the participants
