

## 2020-2021

Name of the Department/Society: **National Service Scheme**

Name of the Event **68**: Webinar on Green Engineering

Date of the Event: 10<sup>th</sup> November, 2020

With the news of increasing levels of pollution making it to the headlines everyday, it becomes more important than ever to give a mindful thought towards ways to protect our environment and to make it more sustainable for the future generations to come.

To raise awareness among the masses to protect our Earth through sustainable ways, NSS Hansraj organized a webinar on 10th November 2020. Our speaker, Ms. Heba Al Farra, who is the champion of Earth for Middle East, enlightened the audience about "Green Engineering" among other ways to promote a sustainable, pollution-free environment.

The session was quite interactive with 100+ participants engaging with the speaker. The audience was able to learn about various aspects of green engineering, what role we as a student can play in supporting it and how to spread the message on larger level.

In a nutshell, the event was a great success fulfilling its purpose.
