It is important for the Lab Staff to have a proper understanding about the apparatus that are to be used in a Lab. They must be well aware about the installation, handling, basic troubleshooting and proper placing of each and every apparatus. They must ensure the lab safety for the students who perform their experiments in labs. Specially, the Thermal Physics experiments which involve gas-flames, gas-pipelines, heat, hot water, ice and power supply, it becomes mandatory for all the lab staffs to be well acquainted for smooth and safe running of the lab.

Thus a One day Training-cum-Workshop was held on 27th October 2023 in the Thermal Lab of Department of Physics, Hansraj College. It was emphasized to the lab staff about the placing of all the apparatus, according to the availability of Gas-points and water- sinks.
