

2019-20

Name of the Department/Society: Green Warriors Club

Name of the Event 7: Eco-brick Pinata

Date of the Event: 29 February 2020

"None of us can change our yesterdays, but all of us can change our tomorrows."

We, at Green Warriors Club, experienced high elation to have borne witness to yet another eye-opening program on the account of our annual fest MIDORI'20. The motto #Greenforgood made us think of innovative ways to protect the environment and made us present the program "Eco-Brick Pinata", which got its huge success on February 29th, 2020.

The main agenda of this program was to reduce the usage of polythene while providing the unique usage of used polythene by following one of the 3R's ways i.e. Reuse. In this innovative thought, we filled the polythene in the used plastic bottles and use these bottles for construction which saves environmental pollution in many ways. With the overwhelming participation of members, the unique program got a humongous success and their vehemence of involving themselves in the process of protecting the environment gave a fillip to an already vibrant program.
