

2021-22

Name of Society : Green Warriors Club
Name of Events : Webinar on active air purification
Date of Event : 5th June 2021

On 5th June, we successfully conducted a webinar with 88 participants on the topic "ACTIVE AIR PURIFICATION

TECHNOLOGY- The savior for the current times".

Our eloquent speaker was Mr Chirag Kataria, a part of CAMFIL INDIA Pvt. Ltd, the world's leading air filter manufacturer since 2015. Currently, he is leading the indoor air quality division at Zeco Aircon Ltd. He aims to contribute towards creating a greener environment.

He started the discussion by talking about the importance of indoor air purifiers. Then, through the assistance of an impressive presentation, he explained to us the different types of air pollutants and how small-sized pollutants can be a major threat to us. He also magnified the importance of indoor air purifiers during Covid-19.

He then tried to familiarize the attendees with the two most effective air purification techniques; PHOTO HYDRO IONIZATION and REFLECTIVE ELECTROMAGNETIC ENERGY.

In the end, he gracefully answered the participant's queries. All in all, the whole webinar was very informative and engaging.
