

2021-2022

Name of the Department/Society: **National Service Scheme**

Name of the Event 53: WORLD ENVIRONMENT DAY

Date of the Event: 5th June 2022

World Environment Day is celebrated annually on 5 June and is the United Nations' principal vehicle for encouraging awareness and action for the protection of the environment. The 2022 World Environment Day campaign #OnlyOneEarth calls for collective, transformative action on a global scale to celebrate, protect and restore our planet. NSS Hansraj celebrated the occasion of World Environment Day on June 5 with full enthusiasm.

In order to take a few steps towards creating a green environment and take actions to protect our ailing earth, we conducted three activities which included a plantation drive, online quiz and a survey. The plantation drive was held online and volunteers were asked to upload geotagged pictures of them planting a sapling in a Google Form. We also conducted an Instagram quiz to ensure that people are well verse with the environmental issues that we face.

The survey helped us to analyze the sustainable practices that can be adopted in our day-to-day life. Out of the 89 responses received, the survey stated blindsiding data such as 51.7% of people still use plastic straws and solar energy related products are used by only 47.2%. However, on the bright side, 96.6% people used public transport and 70.8% of people segregated the waste they generated. 91% of the people also used reusable bags. Taking small steps each day helps to create a major impact in the longer run.
