NAAC ACCREDITED 'A++' GRADE COLLEGE

Action Taken Report (2023-24)

Hansraj College strives to create an inclusive, dynamic, and forward-looking academic environment. In this endeavour, the college takes feedback and improves on the suggestions made by its stakeholders. The primary objective of this report is to address the suggestions and concerns raised by stakeholders and to highlight the actions taken in response.

Issues Identified	Action Taken
Teachers appreciated the well-designed curriculum but noted a need to emphasize the balance between theory and application.	Encouraged faculty-driven student research projects through Research and Development Cell to bridge the theory-application gap and introduced interactive teaching methodologies.
While most teachers found resources sufficient, some suggested improvements.	Upgraded digital infrastructure to provide additional resources, including access to online databases and learning materials.
Teachers called for more career-oriented modules and skill development.	Introduced skill enhancement courses this year as Add-on certificate courses and collaborated with industry partners to align curriculum with market demands.
Students praised syllabus coverage and teacher communication, but noted the need for more interactive teaching.	Our active Faculty development Centre has organised development programs for faculty to integrate modern pedagogical tools and interactive techniques.
Students suggested improvements in classrooms and sports facilities.	Initiated upgrades in classroom facilities, renovated old and constructed new classrooms and planned improvements for sports infrastructure. Further, new science labs have been added in various departments to provide better access to computers to all the students.
