Zoology course is based on a comprehensive study that focuses on animals and animal life. The study of animals and communities provides an insight into how "life" works. It includes the scientific studies related to the entire species of the animal kingdom, and how biodiversity affects ecological function. It offers an amalgamation of understanding animal world from outside as well as at molecular level.

As a Zoologist, the in-depth knowledge of animal sciences acquired, and experience in laboratory and field work enables the students to choose a career in any of the diverse disciplines such as Environmental Sciences, Life Sciences, Genetics, Biotechnology, Toxicology, Molecular Biology, Forestry, Wildlife Conservation and Pharmaceutical Industries. Learner-centric pedagogy supplemented with seminars, workshops, educational excursions to various research institutes, hospitals, wild life sanctuaries, biodiversity parks, Zoo etc. provides an enormous exposure to the students. Hands-on training and interaction with eminent scientists help in inculcating a deeper understanding and interest towards research and development in animal sciences. Add-on Courses are also conducted to provide students with additional knowledge and understanding in a specific discipline of their interest. The current Undergraduate Curriculum Framework (UGCF)-2022 based on NEP 2020 provides multidisciplinary and holistic education with emphasis on research, skill development and critical thinking skills to promote innovation and employability. Zoology department offers Skill Enhancement Course (SEC) such as in Sericulture, Apiculture and Public health, hygiene and nutrition etc, which develops fine skills in students that can further help them to pursue alternate careers with technical expertise in these areas. The Department has a Center for Skill Development and Seri technology which equips the students opting for SEC Sericulture with innovative, creative, and skill-based knowledge.
