The panel discussion was organized under the aegis of ICC Hansraj College in collaboration with IQAC. The main aim of organizing the discussion was to inspire and motivate students to take up entrepreneurship and provide opportunities for students to interact with start-up founders and learn from their experiences. Through this discussion ICC aimed to nurture innovative ideas of the students and provide support for start-ups.

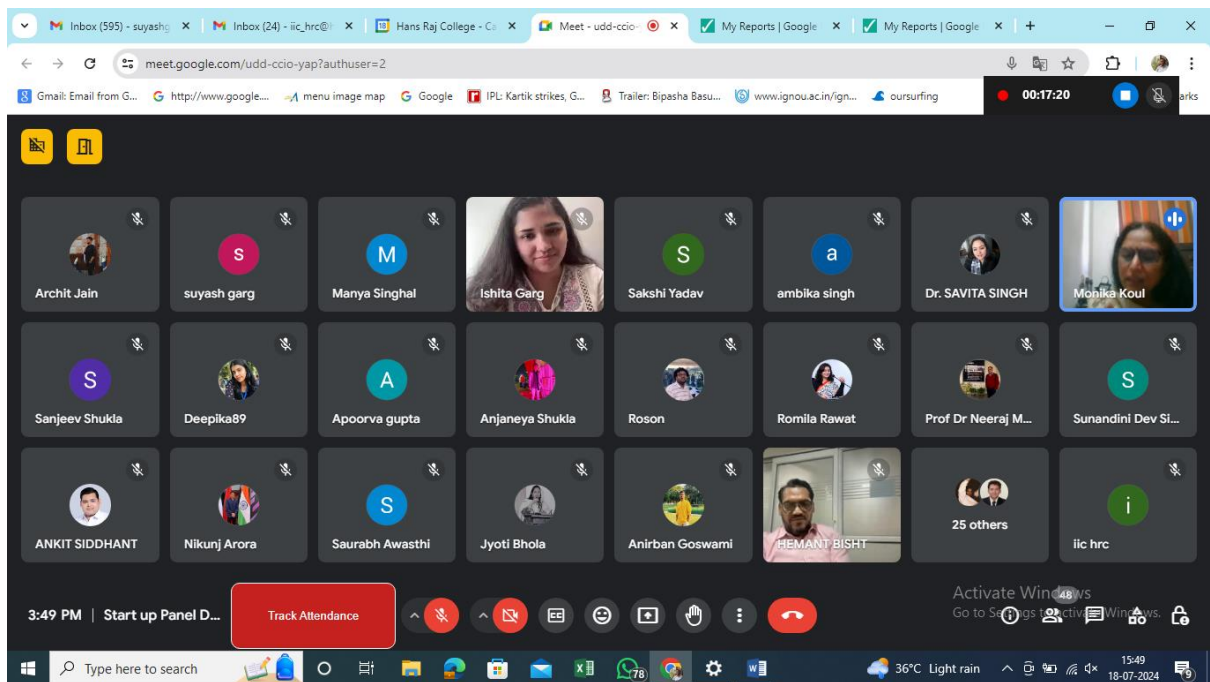

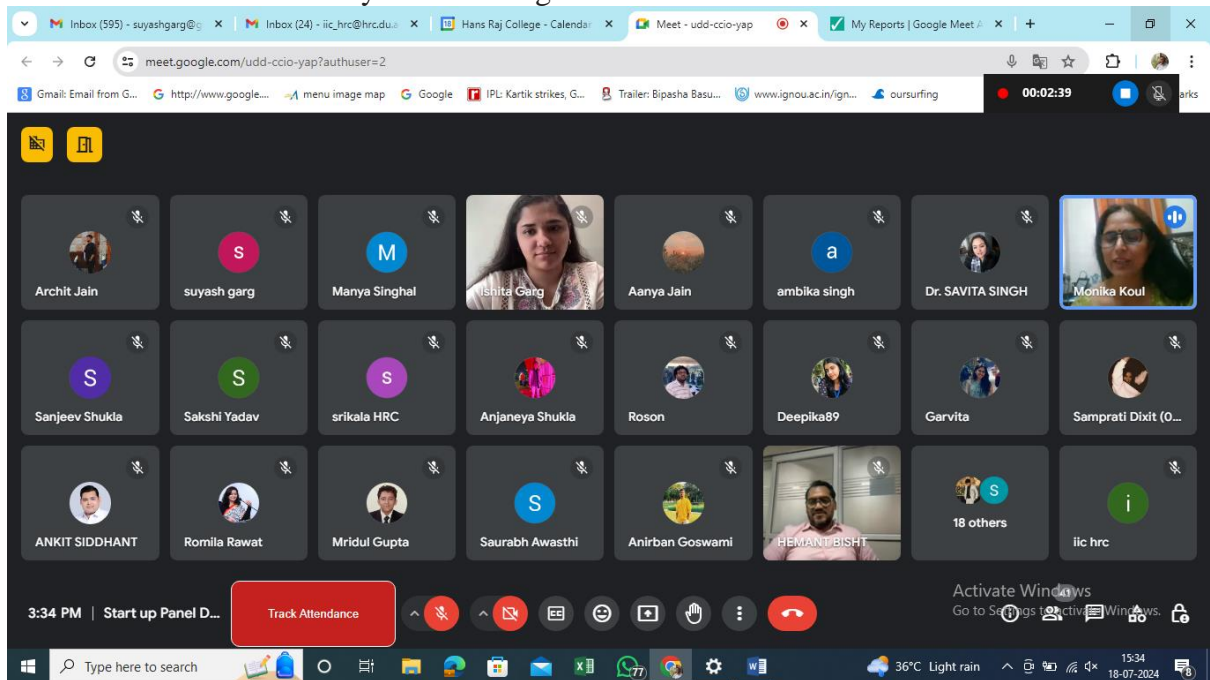

The panel discussion, organized by Institution Innovation Council (IIC) in collaboration with IQAC, was highly interactive and insightful. The event began with opening remarks by Dr. Ambika, Department of Chemistry and Convener ICC who introduced the Institution Innovation Council and discussed its activities.

Prof. Monika Koul introduced the speakers and moderated the discussion, which featured two young and dynamic start-up initiators, Ms. Ishita Garg and Mr. Hemant Bisht. Ms. Ishita shared her journey as a young start-up entrepreneur, starting from her school days, and discussed the challenges she faced in convincing people about her business idea. Mr. Hemant, co-founder of many successful start-ups, highlighted the importance of funding for start-ups and provided valuable insights on funding opportunities. Both Ms. Ishita and Mr. Hemant emphasized the significance of having faith in one's team and the power of a good idea. Mr. Hemant discussed the importance of sticking to one's idea and Ms. Ishita talked about the importance of resilience in the face of challenges. The importance of learning from new experiences, the strength to stand up again after a debacle were important take away points for youngsters. The Indian ecosystem is ready for a change and young students need to take risks, the power of people, perseverance and passion were also few points that were discussed.

The discussion was followed by a Q&A session, where students asked questions and sought advice from the guest speakers. The event concluded with a vote of thanks by Pratibha Pandey who thanked the panelists and the Principal Prof Rama for providing the platform. Dr Suyash, Department of Computer Science helped with the technical aspects. Event was attended by 52 participants including the attendees from many institutions.

Overall, the panel discussion was a huge success, providing students with valuable insights and inspiration to pursue their entrepreneurial dreams.

We believe that such events will inspire and motivate students to become young entrepreneurs and contribute to the country's economic growth.
