NAAC ACCREDITED 'A++' GRADE COLLEGE

2024-2025

Name of the Event: Gemini AI Workshop

Organized by: Ordinateur, Hansraj College

Date of the Event: 7 November 2024- 8 November 2024

Duration/Event Timing: 1:00 PM – 5:00 PM

Venue of the Event: Lab 5 & 1

Name of Coordinators: Dr. Vidhi Khanduja

Student Coordinators: Netresh Singh ,Yashasvi Mittal

Name of Convener: Mr. Suyash Kumar

ORDINATEUR
THE COMPUTER SCIENCE SOCIETY
HANRAJ COLLEGE

PRESENTS

GEMINI AI WORKSHOP

DATE: 7 & 8 NOV
TIME: 1 PM - 4 PM
VENUE: LAB 1 & 5

NAAC ACCREDITED 'A++' GRADE COLLEGE

Description of the event

The **Gemini AI Workshop** spanning two days was organized by the members of **Google Developer's Group** and the members of **Ordinateur** (the Computer Science Society) with one objective in mind: bringing out the best through the students. The goal was to build an interface which accepts input prompts and provides output as the 'Gemini' application does.

Over a period of two days, we tried and achieved the basic goals we had set ourselves.

The event began with a speech by **GDG Hansraj lead, Rakshit Rabugotra**, who highlighted the role of GDG in providing students with opportunities to develop their skills. The first sections of the workshop featured **HTML, CSS, and Javascript** tutorials. Further, Deepanshu Saini started off by giving a brief tutorial of HTML to the students. They learned to set up a **GitHub repository and used GitHub Codespaces** to begin building the interface. They applied CSS styles and learned basic properties. After a short refreshment break, the session moved towards the development of JavaScript including types and objects, and how to create basic site features that take user inputs and output them on the console. The day 1 session ended with a small homework assignment.

The second day commenced with a revision of the previous day's content, followed by an insightful session on **version control with Git**, led by Rakshit Rabugotra. Participants learned to implement Git in their project. **Parth Ratra, Head of Development at Ordinateur**, explained Gemini's history, variants, **API integration, and implementation** in the project. The session was followed by a break with refreshments. Afterward, **Mayank Yadav, Technical Lead at GDG and Head of Development at Ordinateur**, led the final stage of the project, providing in-depth guidance on completing the project.

Overall, the workshop was a great success, with strong participation, valuable learning experiences, and great support from all involved.
